# Doing Business 2020

Comparing Business  
Regulation in  
**190** Economies

**Economy Profile of Côte d'Ivoire**

*Doing Business 2020 Indicators  
(in order of appearance in the document)*

<b>Starting a business</b>	Procedures, time, cost and paid-in minimum capital to start a limited liability company
<b>Dealing with construction permits</b>	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
<b>Getting electricity</b>	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
<b>Registering property</b>	Procedures, time and cost to transfer a property and the quality of the land administration system
<b>Getting credit</b>	Movable collateral laws and credit information systems
<b>Protecting minority investors</b>	Minority shareholders' rights in related-party transactions and in corporate governance
<b>Paying taxes</b>	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as postfiling processes
<b>Trading across borders</b>	Time and cost to export the product of comparative advantage and import auto parts
<b>Enforcing contracts</b>	Time and cost to resolve a commercial dispute and the quality of judicial processes
<b>Resolving insolvency</b>	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
<b>Employing workers</b>	Flexibility in employment regulation and redundancy cost

## About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

*Doing Business* captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of employing workers. Although *Doing Business* does not present rankings of economies on the employing workers indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

In addition, *Doing Business* offers detailed [subnational studies](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These studies provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* study, published in 2003, covered 5 indicator sets and 133 economies. This year's study covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Documentary compliance (hours)	89
Border compliance (hours)	125
<i>Cost to export</i>	
Documentary compliance (USD)	267
Border compliance (USD)	456
<b>Enforcing Contracts</b> (rank)	94
Score of enforcing contracts (0-100)	57.6
Time (days)	525
Cost (% of claim value)	41.7
Quality of judicial processes index (0-18)	9.5
<b>Resolving Insolvency</b> (rank)	85
Score of resolving insolvency (0-100)	47.9
Recovery rate (cents on the dollar)	36.8
Time (years)	2.2
Cost (% of estate)	18.0
Outcome (0 as piecemeal sale and 1 as going concern)	0
Strength of insolvency framework index (0-16)	9.0

## Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to legally start and formally operate a company (number)</b></p> <ul style="list-style-type: none"> <li>• Preregistration (for example, name verification or reservation, notarization)</li> <li>• Registration in the economy's largest business city</li> <li>• Postregistration (for example, social security registration, company seal)</li> <li>• Obtaining approval from spouse to start a business or to leave the home to register the company</li> <li>• Obtaining any gender specific document for company registration and operation or national identification card</li> </ul> <p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Does not include time spent gathering information</li> <li>• Each procedure starts on a separate day (2 procedures cannot start on the same day)</li> <li>• Procedures fully completed online are recorded as ½ day</li> <li>• Procedure is considered completed once final document is received</li> <li>• No prior contact with officials</li> </ul> <p><b>Cost required to complete each procedure (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Official costs only, no bribes</li> <li>• No professional fees unless services required by law or commonly used in practice</li> </ul> <p><b>Paid-in minimum capital (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Funds deposited in a bank or with third party before registration or up to 3 months after incorporation</li> </ul>	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p> <p><b>The business:</b></p> <ul style="list-style-type: none"> <li>-Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the limited liability form most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office.</li> <li>-Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>-Performs general industrial or commercial activities such as the production or sale to the public of goods or services. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It is not using heavily polluting production processes.</li> <li>-Does not qualify for investment incentives or any special benefits.</li> <li>-Is 100% domestically owned.</li> <li>-Has five business owners, none of whom is a legal entity. One business owner holds 30% of the company shares, two owners have 20% of shares each, and two owners have 15% of shares each.</li> <li>-Is managed by one local director.</li> <li>-Has between 10 and 50 employees one month after the commencement of operations, all of them domestic nationals.</li> <li>-Has start-up capital of 10 times income per capita.</li> <li>-Has an estimated turnover of at least 100 times income per capita.</li> <li>-Leases the commercial plant or offices and is not a proprietor of real estate.</li> <li>-Has an annual lease for the office space equivalent to one income per capita.</li> <li>-Is in an office space of approximately 929 square meters (10,000 square feet).</li> <li>-Has a company deed that is 10 pages long.</li> </ul> <p><b>The owners:</b></p> <ul style="list-style-type: none"> <li>-Have reached the legal age of majority and are capable of making decisions as an adult. If there is no legal age of majority, they are assumed to be 30 years old.</li> <li>-Are in good health and have no criminal record.</li> <li>-Are married, the marriage is monogamous and registered with the authorities.</li> <li>-Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.</li> </ul>

## Details - Starting a Business in Côte d'Ivoire - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Open a bank account and deposit the minimum capital at the bank</b>  <i>Agency</i> : Bank            There are two ways to deposit the start-up capital. Business founders can open a bank account to deposit their start-up capital or deposit the capital with a notary and obtain a statement certifying the deposit.</p>	1 day	no charge
2	<p><b>Register at the one-stop shop (CEPICI) and request the publication of the notice of company incorporation</b>  <i>Agency</i> : CEPICI            Companies can be incorporated with a notarized deed or with a privately signed deed. Most limited liability companies are incorporated with a privately signed document.</p> <p>The company registration is made at the One-Stop Shop (CEPICI). Since December 2012, the CEPICI allows entrepreneurs to register with the commercial registrar (Registre du Commerce et du Crédit Immobilier), the tax authority (Direction Générale d'Impôts) and the social security institute (Caisse Nationale de Prévoyance Sociale).</p> <p>The one-stop-shop also publishes the legal notice of incorporation on their website (<a href="http://www.cepici.gouv.ci/">http://www.cepici.gouv.ci/</a>).</p>	3 days	XOF 15,000
3	<p><b>Obtain a company seal</b>  <i>Agency</i> : Seal maker            Business founders can make a company seal at a sealmaker for approximately XOF 10,000.</p>	1 day	approximately XOF 10,000
⇒ 4	<p><b>Notify the company's address to the local Tax Authority</b>  <i>Agency</i> : Local Tax Authority (Centre des Impôts)            After the company was registered with the Tax Authority (Direction Générale des Impôts, DGI), the company's address must be informed to the local tax authorities. A notification of the company's address (demande de rattachement) must be delivered to the local Tax Authority (Centre des Impôts du siège social).</p>	1 day (simultaneous with previous procedure)	no charge

⇒ Takes place simultaneously with previous procedure.

## Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2019. [See the methodology for more information](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to legally build a warehouse (number)</b></p> <ul style="list-style-type: none"> <li>• Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates</li> <li>• Submitting all required notifications and receiving all necessary inspections</li> <li>• Obtaining utility connections for water and sewerage</li> <li>• Registering and selling the warehouse after its completion</li> </ul> <p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Does not include time spent gathering information</li> <li>• Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule</li> <li>• Procedure is considered completed once final document is received</li> <li>• No prior contact with officials</li> </ul> <p><b>Cost required to complete each procedure (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Official costs only, no bribes</li> </ul> <p><b>Building quality control index (0-15)</b></p> <ul style="list-style-type: none"> <li>• Quality of building regulations (0-2)</li> <li>• Quality control before construction (0-1)</li> <li>• Quality control during construction (0-3)</li> <li>• Quality control after construction (0-3)</li> <li>• Liability and insurance regimes (0-2)</li> <li>• Professional certifications (0-4)</li> </ul>	<p>To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.</p> <p><b>The construction company (BuildCo):</b></p> <ul style="list-style-type: none"> <li>- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.</li> <li>- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.</li> </ul> <p><b>The warehouse:</b></p> <ul style="list-style-type: none"> <li>- Will be used for general storage activities, such as storage of books or stationery.</li> <li>- Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.</li> <li>- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.</li> <li>- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).</li> </ul> <p><b>The water and sewerage connections:</b></p> <ul style="list-style-type: none"> <li>- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.</li> <li>- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.</li> <li>- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.</li> </ul>

## Details - Dealing with Construction Permits in Côte d'Ivoire - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Obtain proof of ownership of the land</b>  <i>Agency</i> : Domaine Urbain or Conservation Foncière            Only about 30% of landowners have a property title.</p>	10 days	XOF 6,000
⇒ 2	<p><b>Obtain technical file from authorized land surveyor</b>  <i>Agency</i> : Authorized Land Surveyor            In an urban zone, the cost for the technical dossier that will be used to produce six excerpts is fixed at FCFA 710,000.00 by the Order of Land Surveyors. The land surface is taken into account in rural areas.</p>	7 days	XOF 125,000
3	<p><b>Obtain a geotechnical study</b>  <i>Agency</i> : LABOGEM            BuildCo will request a soil test for the structural calculations for the foundation. The topographical survey is provided for this test.</p>	25 days	XOF 900,000
⇒ 4	<p><b>Obtain approval of the topographical survey by all agencies at the GUPC and the Urban Planning Certificate</b>  <i>Agency</i> : Guichet Unique du Permis de Construire (GUPC)            The One-stop shop (Guichet Unique du Permis de Construire) is now fully functional. All services are represented on the premises. BuildCo must submit several copies of the topographical survey to obtain the VISA from wastewater, Sanitation and planning Department, Urban Department and Land Registry administration, Water Authority (SODECI) and Electricity Authority (CIE). In addition, the Urban planning certificate is also obtained at the same time.             Several copies of the topographical survey must be submitted to obtain the different VISAs.</p>	10 days	XOF 21,000
⇒ 5	<p><b>Obtain "notice sécurité incendie" from the Office National de la Protection Civile</b>  <i>Agency</i> : Office National de la Protection Civile            Office Nationale de la Protection Civile (ONPC) gives its opinion on the safety rules. The firefighters will certify that all safety standards were respected. A report is issued by the firefighters and if necessary the architect adjusts plans based on the firefighters report. Normally, this is done only for large buildings, but a warehouse falls into the category that requires the certificate.</p>	10 days	no charge
⇒ 6	<p><b>Register project with the Order of Architects</b>  <i>Agency</i> : Ordre National des Architectes            The architect who designed the plans will register these plans with the National Order of the Architects. It is one way of certifying that the plans were completed by a licensed architect.</p>	1 day	no charge
⇒ 7	<p><b>Hire a bureau de controle technique</b>  <i>Agency</i> : Private firm            According to Article 21 of Decree N°2016-49 dated February 10, 2016, for Class IV buildings - such as the Doing Business warehouse in the case study assumptions - it is mandatory to hire an independent firm to supervise and conduct inspections during construction. This private firm will be held liable for any defaults in construction.</p>	1 day	XOF 1,142,693

8	<p><b>Obtain building permit</b>  <i>Agency</i> : Local Municipality (SGUFH - Service du Guichet Unique du Foncier et de l'Habitat)</p> <p>The dossier required to obtain a building permit includes the following documents:</p> <ul style="list-style-type: none"> <li>• Block plan (scale, 1/500, 1/200, 1/100)</li> <li>• Execution plan (scale 1/50)</li> <li>• Summary of technical specifications</li> <li>• Summary of cost estimates</li> <li>• Proof of property ownership</li> <li>• Written approval from the Minister of Urban Planning</li> </ul> <p>Six copies of the dossier must be sent to the Building Permit Commission. The Commission is comprised of the Construction Minister, a representative of the Municipality, a representative of the Civil Protection Department, a representative from the Hygiene Department, and a representative from the Order of Architects. The building permit is obtained within 3 months on average if one does not pay bribes. Two weeks after submission, the dossier is sent to the Municipality, where the permit fee is paid.</p> <p>If the total surface is less than 120 sq.m. and the estimated cost of construction is less than FCFA 30 million, there is no need to have the architectural plans designed by an architect, both conditions must be met. However, for any building with a total surface of more than 120 sq.m. or the estimate cost of construction is higher than FCFA 30 million, the plans must be drawn by an architect.</p>	30 days	XOF 50,000
9	<p><b>Receive random inspection to verify that a building permit has been issued</b>  <i>Agency</i> : Brigade de Contrôle d'Investigation du Ministère de la Construction</p> <p>The Brigade de Contrôle d'Investigation du Ministère de la Construction will inspect the construction site to first verify if a building permit was issued.</p>	1 day	no charge
10	<p><b>Receive random inspection during construction - II</b>  <i>Agency</i> : Brigade de Contrôle d'Investigation du Ministère de la Construction</p> <p>In general the Brigade de Contrôle d'Investigation du Ministère de la Construction will inspect the construction site several times during the construction phase (generally about once every 3 weeks). This inspection is only to check if the permit has been issued and it is not a technical inspection.</p>	1 day	no charge
11	<p><b>Receive random inspection during construction - III</b>  <i>Agency</i> : Brigade de Contrôle d'Investigation du Ministère de la Construction</p> <p>This inspection is only to check if the permit has been issued. It is not a technical inspection.</p>	1 day	no charge
12	<p><b>Receive random inspection during construction - IV</b>  <i>Agency</i> : Brigade de Contrôle d'Investigation du Ministère de la Construction</p> <p>This inspection is only to check if the permit has been issued. It is not a technical inspection.</p>	1 day	no charge
13	<p><b>Receive random inspection from Services du District d'Abidjan</b>  <i>Agency</i> : Services du District d'Abidjan</p> <p>The Services du District d'Abidjan is responsible for all of Abidjan and will inspect any construction site, even if it has not issued the building permit for this particular project. This inspection is only to check if the permit has been issued. It is not a technical inspection.</p>	1 day	no charge
14	<p><b>Receive random inspection from Services de la Municipalité</b>  <i>Agency</i> : Services de la Municipalité</p> <p>The technical services of the Municipality will randomly inspect the construction site. This inspection is only to check if the permit has been issued. It is not a technical inspection.</p>	1 day	no charge
15	<p><b>Receive inspection from the National Security Commission to verify that the building conforms to security standards</b>  <i>Agency</i> : National Security Commission</p> <p>The fire safety inspections are unannounced. The National Security Committee will visit the warehouse to ensure that fire safety standards have been met.</p>	1 day	no charge
16	<p><b>Request certificate of conformity</b>  <i>Agency</i> : Ministère de la Construction</p> <p>The request to obtain a certificate of conformity is done at the Ministry of Construction and the following documents must be submitted:</p> <ul style="list-style-type: none"> <li>- application form</li> <li>- approval of the building permit</li> <li>- authenticated plans</li> <li>- different visas</li> </ul> <p>The cost of the certificate of conformity is XOF 25,000 + XOF 1,000 for the cardboard folders.</p>	1 day	XOF 26,000
17	<p><b>Receive inspection to verify the building was built according to approved plans</b>  <i>Agency</i> : Ministère de la Construction</p> <p>The technical services division of the Ministry of Construction will inspect the warehouse after construction is complete to verify that the warehouse has been built in compliance with the approved plans and in conformity with existing regulations. This inspection is required by law. If no issues are found, the 'proces verbal' will be written and the certificate of conformity is sent to the Minister for his signature.</p>	1 day	no charge

18	<b>Obtain certificate of conformity</b> <i>Agency</i> : Ministry of Construction and Urban Planning (Ministère de la Construction et de l'Urbanisme)	73 days	no charge
⇒ 19	<b>Request water connection</b> <i>Agency</i> : SODECI	1 day	no charge
20	<b>Receive site inspection by water company</b> <i>Agency</i> : SODECI The inspection takes place within a week of applying for water. The cost estimate is given a few days after the inspection.	1 day	no charge
21	<b>Obtain water connection</b> <i>Agency</i> : SODECI It takes 7 days to obtain the connection once the payment is made. The total time from the time of application to the time of final connection may take up to one month if no preliminary installation was made. The water service agency is generally efficient, and the connection can be obtained quickly.	14 days	XOF 130,000
⇒ 22	<b>Build septic tank</b> <i>Agency</i> : Private firm	14 days	XOF 300,000

⇒ Takes place simultaneously with previous procedure.

## Details - Dealing with Construction Permits in Côte d'Ivoire - Measure of Quality

	Answer	Score
<b>Building quality control index (0-15)</b>		<b>10.0</b>
<b>Quality of building regulations index (0-2)</b>		<b>2.0</b>
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Fees to be paid; Required preapprovals.	1.0
<b>Quality control before construction index (0-1)</b>		<b>1.0</b>
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed architect; Civil servant reviews plans.	1.0
<b>Quality control during construction index (0-3)</b>		<b>2.0</b>
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Inspections by external engineer or firm; Unscheduled inspections; Inspections at various phases.	1.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are always done in practice.	1.0
<b>Quality control after construction index (0-3)</b>		<b>2.0</b>
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, final inspection is done by government agency.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection does not always occur in practice.	0.0
<b>Liability and insurance regimes index (0-2)</b>		<b>1.0</b>
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer; Professional in charge of the supervision; Construction company.	1.0
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	No party is required by law to obtain insurance .	0.0
<b>Professional certifications index (0-4)</b>		<b>2.0</b>
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	Minimum number of years of experience; University degree in architecture or engineering; Being a registered architect or engineer.	2.0
What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)	University degree in engineering, construction or construction management.	0.0

## ⚡ Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Procedures to obtain an electricity connection (number)

- Submitting all relevant documents and obtaining all necessary clearances and permits
- Completing all required notifications and receiving all necessary inspections
- Obtaining external installation works and possibly purchasing material for these works
- Concluding any necessary supply contract and obtaining final supply

#### Time required to complete each procedure (calendar days)

- Is at least 1 calendar day
- Each procedure starts on a separate day
- Does not include time spent gathering information
- Reflects the time spent in practice, with little follow-up and no prior contact with officials

#### Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- Value added tax excluded

#### The reliability of supply and transparency of tariffs index (0-8)

- Duration and frequency of power outages (0-3)
- Tools to monitor power outages (0-1)
- Tools to restore power supply (0-1)
- Regulatory monitoring of utilities' performance (0-1)
- Financial deterrents limiting outages (0-1)
- Transparency and accessibility of tariffs (0-1)

#### Price of electricity (cents per kilowatt-hour)\*

- Price based on monthly bill for commercial warehouse in case study

\*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor in the ranking on the ease of getting electricity.

### Case study assumptions

To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.

#### The warehouse:

- Is owned by a local entrepreneur and is used for storage of goods.
- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.
- Is a new construction and is being connected to electricity for the first time.
- Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).

#### The electricity connection:

- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).
- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.
- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.

#### The monthly consumption:

- It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.
- If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.
- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

Getting Electricity - Côte d'Ivoire

Standardized Connection

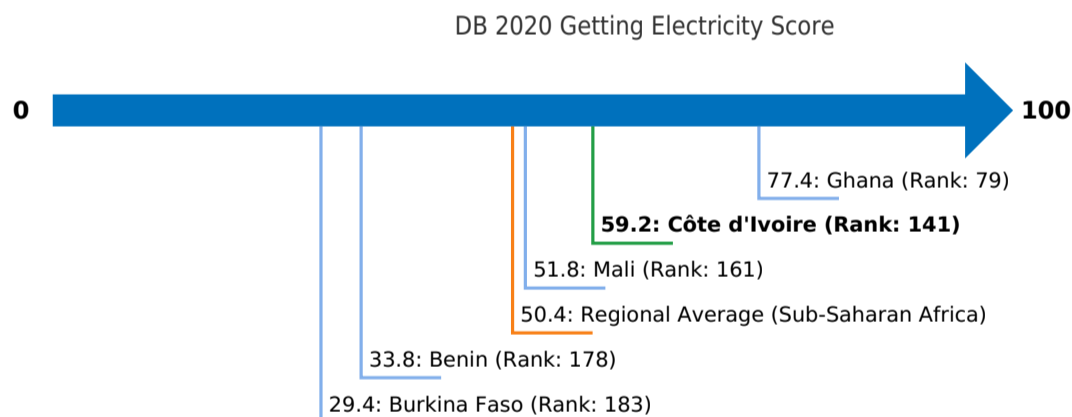

Name of utility	Compagnie Ivoirienne d'Electricité (CIE)
Price of electricity (US cents per kWh)	12.6
City Covered	Abidjan

Indicator	Côte d'Ivoire	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Procedures (number)	8	5.2	4.4	3 (28 Economies)
Time (days)	53	109.6	74.8	18 (3 Economies)
Cost (% of income per capita)	2194.1	3,187.5	61.0	0.0 (3 Economies)
Reliability of supply and transparency of tariff index (0-8)	5	1.6	7.4	8 (26 Economies)

Figure - Getting Electricity in Côte d'Ivoire - Score

Figure - Getting Electricity in Côte d'Ivoire and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting electricity is determined by sorting their scores for getting electricity. These scores are the simple average of the scores for all the component indicators except the price of electricity.

Figure - Getting Electricity in Côte d'Ivoire - Procedure, Time and Cost

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures

reflected here, see the summary below.

Figure - Getting Electricity in Côte d'Ivoire and comparator economies - Measure of Quality

## Details - Getting Electricity in Côte d'Ivoire - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Obtain internal wiring inspection by government agency SECUREL</b>  <i>Agency : SECUREL</i>            Before applying for a new connection, the customer has to ask for an internal inspection at LBTP/Securel to obtain a certificate of conformity. SECUREL is a government agency that was created to check the internal wiring in buildings of new customers.</p>	5 calendar days	XOF 200,000
2	<p><b>Submit application to CIE and await external inspection</b>  <i>Agency : Compagnie Ivoirienne d'Electricité (CIE)</i>            The application for a new connection can be submitted online or in person. The following documents have to be attached: the certificate confirming the security of the internal wiring, a topographic excerpt or the building permit to justify the quality of the land owner, an ID and the company's registration certificate.</p>	7 calendar days	XOF 0
3	<p><b>Receive external site inspection by CIE and await estimate</b>  <i>Agency : Compagnie Ivoirienne d'Electricité (CIE)</i>            CIE comes to the site to do an external inspection to determine the cost of the connection and to do a technical study that details what works have to be done. Someone from the customer's party has to be present. Following the visit, CIE will finalize the estimate.</p>	7 calendar days	XOF 0
4	<p><b>Request authorization of external works from Ageroute and municipality</b>  <i>Agency : Ageroute and municipality</i>            For overhead connections, an authorization from Ageroute is necessary for the external connection works. The client also needs to inform the municipality of the works.</p> <p>The client sends geographic maps indicating the location of the works to the Ageroute and waits for the 'validation meeting' to have his project approved. For the Municipality, the client only has to mail a quick description of the works to the technical department of the municipality.</p>	7 calendar days	XOF 0
5	<p><b>Hire electrical contractor and inform CIE of choice</b>  <i>Agency : Compagnie Ivoirienne d'Electricité (CIE)</i>            The external works can be performed by the utility or a private contractor licensed by the CIE. The second option is more frequent. The client must then inform the CIE on the choice of contractor - as well as the supplier for the material for the external works. The CIE may be informed by courier, but some customers prefer to go directly to the office of the CIE and show directly the 'Devis' of the contractor that has been hired.</p>	3 calendar days	XOF 0
6	<p><b>Purchase material and have it tested by CIE</b>  <i>Agency : Electrical Contractor</i>            For a requested load of 140kVA, in general an additional transformer needs to be installed. The customer's electrical contractor will buy the material. Before beginning the external works, however, the contractor of the client will need the CIE to come on-site and approve the material. There is usually no wait time to buy a transformer on the local market, although some contractors prefer to save money by importing. The customer pays the full cost for the transformer and the installation.</p>	5 calendar days	XOF 0
7	<p><b>Await completion of external works by private contractor and receive inspections</b>  <i>Agency : Electrical Contractor</i>            The electrical contractor does the final connection. The utility is supervising the work of the electrical contractor. Basically, the utility passes by every day to check and supervise the works executed by the contractor.</p>	19 calendar days	XOF 19,396,671.5
⇒ 8	<p><b>Sign supply contract to receive meter installation and electricity turn-on by CIE</b>  <i>Agency : Compagnie Ivoirienne d'Electricité (CIE)</i>            The customer concludes a supply contract with the CIE. To conclude a supply contract, the customer has to submit the certificate of conformity of the internal wiring. He/she must also pay the security deposit - if it wasn't already settled upon the payment of the 'devis'. CIE will then proceed to install the meter and do the electricity turn-on.</p>	14 calendar days	XOF 460,644.61

⇒ Takes place simultaneously with previous procedure.

## Details - Getting Electricity in Côte d'Ivoire - Measure of Quality

	Answer
<b>Reliability of supply and transparency of tariff index (0-8)</b>	5
<b>Total duration and frequency of outages per customer a year (0-3)</b>	0
System average interruption duration index (SAIDI)	14.4
System average interruption frequency index (SAIFI)	18.0
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	5.0
<b>Mechanisms for monitoring outages (0-1)</b>	1
Does the distribution utility use automated tools to monitor outages?	Yes
<b>Mechanisms for restoring service (0-1)</b>	1
Does the distribution utility use automated tools to restore service?	Yes
<b>Regulatory monitoring (0-1)</b>	1
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	Yes
<b>Financial deterrents aimed at limiting outages (0-1)</b>	1
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	Yes
<b>Communication of tariffs and tariff changes (0-1)</b>	1
Are effective tariffs available online?	Yes
Link to the website, if available online	<a href="http://www.anare.ci/index.php?id=15">http://www.anare.ci/index.php?id=15</a>
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

**Note:**

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

## Registering Property

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Procedures to legally transfer title on immovable property (number)

- Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes)
- Registration procedures in the economy's largest business city.
- Postregistration procedures (for example, filling title with municipality)

#### Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

#### Cost required to complete each procedure (% of property value)

- Official costs only (such as administrative fees, duties and taxes).
- Value Added Tax, Capital Gains Tax and illicit payments are excluded

#### Quality of land administration index (0-30)

- Reliability of infrastructure index (0-8)
- Transparency of information index (0-6)
- Geographic coverage index (0-8)
- Land dispute resolution index (0-8)
- Equal access to property rights index (-2-0)

### Case study assumptions

To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.

#### The parties (buyer and seller):

- Are limited liability companies (or the legal equivalent).
- Are located in the periurban (that is, on the outskirts of the city but still within its official limits) area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Are 100% domestically and privately owned.
- Perform general commercial activities.

#### The property (fully owned by the seller):

- Has a value of 50 times income per capita, which equals the sale price.
- Is fully owned by the seller.
- Has no mortgages attached and has been under the same ownership for the past 10 years.
- Is registered in the land registry or cadastre, or both, and is free of title disputes.
- Is located in a periurban commercial zone (that is, on the outskirts of the city but still within its official limits), and no rezoning is required.
- Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety.
- Will not be subject to renovations or additional construction following the purchase.
- Has no trees, natural water sources, natural reserves or historical monuments of any kind.
- Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required.
- Has no occupants, and no other party holds a legal interest in it.

Registering Property - Côte d'Ivoire

Indicator	Côte d'Ivoire	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Procedures (number)	5	6.1	4.7	1 (5 Economies)

## Details - Registering Property in Côte d'Ivoire - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Obtain a Location Certificate</b>  <i>Agency</i> : A certified land surveyor            The notary must request a "certificat de localisation," which is generated by a government certified surveyor. The certificate will denote the information included on the title, land survey data, and a description of the status of the parcel. After 2015 it is not mandatory to obtain this certificate, however in practice Notaries still request it to be certain of the object of the transaction.</p>	7 days	XOF 100,000; (+ VAT (18%) - not included in calculation)
⇒ 2	<p><b>The notary solicits the real estate rights record before the Services de la Conservation Foncière</b>  <i>Agency</i> : Land Registry (Conservation de la Propriété Foncière et des Hypothèques)            The notary will usually perform the entire process on behalf of the parties. In this regard, he will firstly check online the property title "livre foncier" to understand which actions are required prior to drafting the sale and purchase deed. The online information is for informative purposes, but it does not have legal validity as it is not signed or certified by the Land Registry.</p> <p>At the same time, the Notary will request a certificate noting the status of rights that affect the property object of the transaction which is delivered in paper format.</p>	5 days	XOF 760,077.01; (3,000 XOF + notary fees. Notary fees are determined on a sliding scale as follows: 3% for the value between XOF 0 and XOF 10,000,000 1.5% for the value between XOF 10,000,000 and XOF 30,000,000 1% for the value between XOF 30,000,000 and XOF 90,000,000 0.5% for the value above XOF 90,000,000.)
⇒ 3	<p><b>The notary obtains a tax clearance</b>  <i>Agency</i> : Tax Authority            The notary should obtain a tax clearance on the property stating that all property taxes related to it have been paid. He can execute the contract on behalf of the parties without the clearance, but must obtain it within one month.</p> <p>After the Loi des Finances of 2017 became effective, it is free to obtain any tax related information from the General Directorate of Taxes.</p>	3 days	no charge
4	<p><b>Prepare sale deed</b>  <i>Agency</i> : Notary            The notary prepares the sale and purchase deed that both parties will sign.</p>	2 days	Included in Procedure No. 2
5	<p><b>Pay all the registration fees and register the transfer</b>  <i>Agency</i> : Administration de la Conservation Foncière et du Cadastre            The notary files the sale and purchase deed to the Land Registry and pays the registration fee (4% of the property value, plus 0.4% for the salary of the Registrar and 0.8% for the territorial budget).</p>	30 days	XOF 2,394,800.46; (Registration tax of 4% of the property value (proportional registration fees) + 3% for Capital Gains Tax (not included in calculation and paid by the Vendor) and transfer fees of 15,000 XOF (new property certificate) + 1.2% (0.8% general service tax 0.4% salary of the "conservateurs") + 3,000 XOF (2,000 FCFA clerk's fee + 1,000 XOF photocopy fee))

⇒ Takes place simultaneously with previous procedure.

## Details - Registering Property in Côte d'Ivoire - Measure of Quality

	Answer	Score
<b>Quality of the land administration index (0-30)</b>		<b>10.0</b>
<b>Reliability of infrastructure index (0-8)</b>		<b>3.0</b>
Type of land registration system in the economy:	Title Registration System	
What is the institution in charge of immovable property registration?	Direction de la Conservation Foncière et des Hypothèques	
In what format are past and newly issued land records kept at the immovable property registry of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Scanned	1.0
Is there a comprehensive and functional electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	Yes	1.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Direction du cadastre	
In what format are past and newly issued cadastral plans kept at the mapping agency of the largest business city of the economy—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	No	0.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Different databases but linked	1.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	No	0.0
<b>Transparency of information index (0-6)</b>		<b>2.0</b>
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Only intermediaries and interested parties	0.0
Is the list of documents that are required to complete any type of property transaction made publicly available—and if so, how?	Yes, on public boards	0.5
Link for online access:		
Is the applicable fee schedule for any type of property transaction at the agency in charge of immovable property registration in the largest business city made publicly available—and if so, how?	Yes, on public boards	0.5
Link for online access:		
Does the agency in charge of immovable property registration agency formally commit to deliver a legally binding document that proves property ownership within a specific timeframe –and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and independent mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		
Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	Yes	0.5
Number of property transfers in the largest business city in 2018:	20931.0	
Who is able to consult maps of land plots in the largest business city?	Anyone who pays the official fee	0.5
Is the applicable fee schedule for accessing maps of land plots made publicly available—and if so, how?	No	0.0
Link for online access:		
Does the cadastral/mapping agency formally specifies the timeframe to deliver an updated cadastral plan—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		

Is there a specific and independent mechanism for filing complaints about a problem that occurred at the cadastral or mapping agency?	No	0.0
Contact information:		
<b>Geographic coverage index (0-8)</b>		<b>0.0</b>
Are all privately held land plots in the largest business city formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the economy formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the largest business city mapped?	No	0.0
Are all privately held land plots in the economy mapped?	No	0.0
<b>Land dispute resolution index (0-8)</b>		<b>6.0</b>
Does the law require that all property sale transactions be registered at the immovable property registry to make them opposable to third parties?	Yes	1.5
Legal basis:	Decret du 26 juillet 1932 portant reorganisation du regime de la propriété foncière en Afrique de l'Ouest 1932	
Is the system of immovable property registration subject to a state or private guarantee?	Yes	0.5
Type of guarantee:	State guarantee	
Legal basis:	Decret du 26 juillet 1932 portant reorganisation du regime de la propriété foncière en Afrique de l'Ouest 1932	
Is there a specific, out-of-court compensation mechanism to cover for losses incurred by parties who engaged in good faith in a property transaction based on erroneous information certified by the immovable property registry?	No	0.0
Legal basis:		
Does the legal system require a control of legality of the documents necessary for a property transaction (e.g., checking the compliance of contracts with requirements of the law)?	Yes	0.5
If yes, who is responsible for checking the legality of the documents?	Registrar; Notary;	
Does the legal system require verification of the identity of the parties to a property transaction?	Yes	0.5
If yes, who is responsible for verifying the identity of the parties?	Registrar; Notary;	
Is there a national database to verify the accuracy of government issued identity documents?	No	0.0
What is the Court of first instance in charge of a case involving a standard land dispute between two local businesses over tenure rights for a property worth 50 times gross national income (GNI) per capita and located in the largest business city?	Tribunal de Première Instance d'Abidjan Plateau	
How long does it take on average to obtain a decision from the first-instance court for such a case (without appeal)?	Less than a year	3.0
Are there publicly available statistics on the number of land disputes at the economy level in the first instance court?	No	0.0
Number of land disputes in the economy in 2018:		
<b>Equal access to property rights index (-2-0)</b>		<b>-1.0</b>
Do unmarried men and unmarried women have equal ownership rights to property?	Yes	
Do married men and married women have equal ownership rights to property?	No	-1.0

## Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Strength of legal rights index (0-12)

- Rights of borrowers and lenders through collateral laws (0-10)
- Protection of secured creditors' rights through bankruptcy laws (0-2)

#### Depth of credit information index (0-8)

- Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8)

#### Credit bureau coverage (% of adults)

- Number of individuals and firms listed in largest credit bureau as a percentage of adult population

#### Credit registry coverage (% of adults)

- Number of individuals and firms listed in credit registry as a percentage of adult population

### Case study assumptions

*Doing Business* assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.

In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.

#### Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:

- ABC is a domestic limited liability company (or its legal equivalent).
- ABC has up to 50 employees.
- ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Both ABC and BizBank are 100% domestically owned.

The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).

In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.

Getting Credit - Côte d'Ivoire

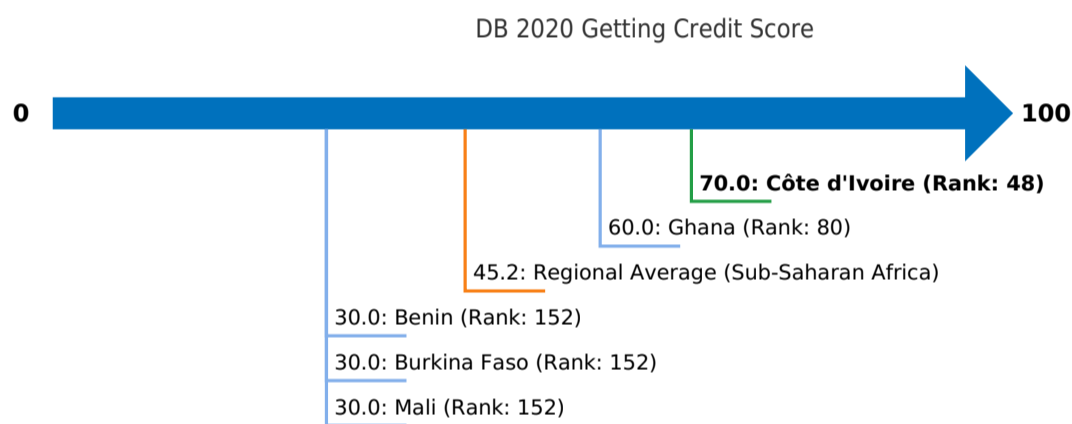

Indicator	Côte d'Ivoire	Sub-Saharan Africa	OECD high income	Best Regulatory Performance

Strength of legal rights index (0-12)

6

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy? Yes

Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral? Yes

Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral? Yes

May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets? Yes

Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered? Yes

Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name? No

Does a notice-based collateral registry exist in which all functional equivalents can be registered? No

Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party? No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure? No

Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated? No

Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it? No

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt? Yes

## Details - Credit Information in Côte d'Ivoire

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	Yes	No	1
Are both positive and negative credit data distributed?	Yes	No	1
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	Yes	No	1
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	Yes	No	1
Are data on loan amounts below 1% of income per capita distributed?	Yes	No	1
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	Yes	No	1
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	Yes	No	1
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	Yes	No	1

Note: An economy receives a score of 1 if there is a "yes" to either bureau or registry. If the credit bureau or registry is not operational or covers less than 5% of the adult population, the total score on the depth of credit information index is 0.

Coverage	Credit bureau	Credit registry
Number of individuals	3,018,072	N/A
Number of firms	14,953	N/A
Total	3,033,025	0
<b>Percentage of adult population</b>	<b>22.1</b>	<b>0.0</b>

## Protecting Minority Investors

This topic measures the strength of minority shareholder protections against misuse of corporate assets by directors for their personal gain as well as shareholder rights, governance safeguards and corporate transparency requirements that reduce the risk of abuse. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

- **Extent of disclosure index (0-10):** Disclosure, review, and approval requirements for related-party transactions
- **Extent of director liability index (0-10):** Ability of minority shareholders to sue and hold interested directors liable for prejudicial related-party transactions; Available legal remedies (damages, disgorgement of profits, disqualification from managerial position(s) for one year or more, rescission of the transaction)
- **Ease of shareholder suits index (0-10):** Access to internal corporate documents; Evidence obtainable during trial and allocation of legal expenses
- **Extent of conflict of interest regulation index (0-30):** Sum of the extent of disclosure, extent of director liability and ease of shareholder suits indices
- **Extent of shareholder rights index (0-6):** Shareholders' rights and role in major corporate decisions
- **Extent of ownership and control index (0-7):** Governance safeguards protecting shareholders from undue board control and entrenchment
- **Extent of corporate transparency index (0-7):** Corporate transparency on ownership stakes, compensation, audits and financial prospects
- **Extent of shareholder governance index (0-20):** Sum of the extent of shareholders rights, extent of ownership and control and extent of corporate transparency indices
- **Strength of minority investor protection index (0-50):** Sum of the extent of conflict of interest regulation and extent of shareholder governance indices

### Case study assumptions

To make the data comparable across economies, a case study uses several assumptions about the business and the transaction.

#### The business (Buyer):

- Is a publicly traded corporation listed on the economy's most important stock exchange.
- Has a board of directors and a chief executive officer (CEO) who may legally act on behalf of Buyer where permitted, even if this is not specifically required by law.
- Has a supervisory board in economies with a two-tier board system on which Mr. James appointed 60% of the shareholder-elected members.
- Has not adopted bylaws or articles of association that go beyond the minimum requirements. Does not follow codes, principles, recommendations or guidelines that are not mandatory.
- Is a manufacturing company with its own distribution network.

#### The transaction involves the following details:

- Mr. James owns 60% of Buyer, sits on Buyer's board of directors and elected two directors to Buyer's five-member board.
- Mr. James also owns 90% of Seller, a company that operates a chain of retail hardware stores. Seller recently closed a large number of its stores.
- Mr. James proposes that Buyer purchase Seller's unused fleet of trucks to expand Buyer's distribution of its food products, a proposal to which Buyer agrees. The price is equal to 10% of Buyer's assets and is higher than the market value.
- The proposed transaction is part of the company's principal activity and is not outside the authority of the company.
- Buyer enters into the transaction. All required approvals are obtained, and all required disclosures made—that is, the transaction was not entered into fraudulently.
- The transaction causes damages to Buyer. Shareholders sue Mr. James and the executives and directors that approved the transaction.

Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0
Must the board of directors include independent and nonexecutive board members?	No	0.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	No	0.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Must Buyer pay declared dividends within a maximum period set by law?	Yes	1.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	No	0.0
<b>Extent of corporate transparency index (0-7)</b>		<b>2.0</b>
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	No	0.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	No	0.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	No	0.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0
Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	No	0.0

## Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2019 covering for the Paying Taxes indicator calendar year 2018 (January 1, 2018 – December 31, 2018). [See the methodology for more information.](#)

### What the indicators measure

#### Tax payments for a manufacturing company in 2018 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

#### Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

#### Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

#### Postfiling Index

- Time to comply with VAT refund (hours)
- Time to obtain VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

### Case study assumptions

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used:

- TaxpayerCo is a medium-size business that started operations on January 1, 2017. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2018). Taxes and mandatory contributions are measured at all levels of government.

#### The VAT refund process:

- In June 2018, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2018.

#### The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

Paying Taxes - Côte d'Ivoire

Indicator	Côte d'Ivoire	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Payments (number per year)	25	36.6	10.3	3 (2 Economies)

Figure - Paying Taxes in Côte d'Ivoire - Score

Figure - Paying Taxes in Côte d'Ivoire and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

## Details - Paying Taxes in Côte d'Ivoire - Tax by Type

Taxes by type	Answer
Profit tax (% of profit)	8.8
Labor tax and contributions (% of profit)	23.3
Other taxes (% of profit)	17.9

## Details - Paying Taxes in Côte d'Ivoire - Measure of Quality

	Answer	Score
<b>Postfiling index (0-100)</b>		<b>64.8</b>
<b>VAT refunds</b>		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	Yes	
Restrictions on VAT refund process	none	
Percentage of cases exposed to a VAT audit (%)	25% - 49%	
Is there a mandatory carry forward period?	No	
Time to comply with VAT refund (hours)	64.0	0.0
Time to obtain VAT refund (weeks)	13.0	81.3
<b>Corporate income tax audits</b>		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	0% - 24%	
Time to comply with a corporate income tax correction (hours)	13.5	78.0
Time to complete a corporate income tax correction (weeks)	No tax audit per case study scenario	100

**Notes:** Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

## Trading across Borders

*Doing Business* records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Documentary compliance

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

#### Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

#### Domestic transport

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

### Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

**Time:** Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as  $22 \times 24 = 528$  hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

**Cost:** Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

#### Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.
- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.
- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.
- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.
- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

Trading across Borders - Côte d'Ivoire

## Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Time required to enforce a contract through the courts (calendar days)

- Time to file and serve the case
- Time for trial and to obtain the judgment
- Time to enforce the judgment

#### Cost required to enforce a contract through the courts (% of claim value)

- Average attorney fees
- Court costs
- Enforcement costs

#### Quality of judicial processes index (0-18)

- Court structure and proceedings (-1-5)
- Case management (0-6)
- Court automation (0-4)
- Alternative dispute resolution (0-3)

### Case study assumptions

The dispute in the case study involves the breach of a sales contract between two domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.

To make the data on the time and comparable across economies, several assumptions about the case are used:

- The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- The Buyer orders custom-made furniture, then fails to pay alleging that the goods are not of adequate quality.
- The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater.
- The Seller sues the Buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000 whichever is greater.
- The Seller requests the pretrial attachment of the defendant's movable assets to secure the claim.
- The claim is disputed on the merits because of Buyer's allegation that the quality of the goods was not adequate.
- The judge decides in favor of the seller; there is no appeal.
- The Seller enforces the judgment through a public sale of the Buyer's movable assets.

## Details - Enforcing Contracts in Côte d'Ivoire - Measure of Quality

	Answer	Score
<b>Quality of judicial processes index (0-18)</b>		<b>9.5</b>
<b>Court structure and proceedings (-1-5)</b>		<b>4.5</b>
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	Yes	1.5
2. Small claims court		1.5
2.a. Is there a small claims court or a fast-track procedure for small claims?	Yes	
2.b. If yes, is self-representation allowed?	Yes	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	Yes, but manual	0.5
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	Yes	0.0
<b>Case management (0-6)</b>		<b>2.5</b>
1. Time standards		1.0
1.a. Are there laws setting overall time standards for key court events in a civil case?	Yes	
1.b. If yes, are the time standards set for at least three court events?	Yes	
1.c. Are these time standards respected in more than 50% of cases?	Yes	
2. Adjournments		0.5
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	Yes	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	Yes	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	Yes	1.0
4. Is a pretrial conference among the case management techniques used before the competent court?	No	0.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
<b>Court automation (0-4)</b>		<b>0.0</b>
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	No	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	No	0.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.0
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
<b>Alternative dispute resolution (0-3)</b>		<b>2.5</b>
1. Arbitration		1.5
1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	Yes	

2. Mediation/Conciliation	1.0
2.a. Is voluntary mediation or conciliation available?	Yes
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects (for example, definition, aim and scope of application, design)	Yes
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No

---

## Resolving Insolvency

*Doing Business* studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Time required to recover debt (years)</b></p> <ul style="list-style-type: none"> <li>• Measured in calendar years</li> <li>• Appeals and requests for extension are included</li> </ul> <p><b>Cost required to recover debt (% of debtor's estate)</b></p> <ul style="list-style-type: none"> <li>• Measured as percentage of estate value</li> <li>• Court fees</li> <li>• Fees of insolvency administrators</li> <li>• Lawyers' fees</li> <li>• Assessors' and auctioneers' fees</li> <li>• Other related fees</li> </ul> <p><b>Outcome</b></p> <ul style="list-style-type: none"> <li>• Whether business continues operating as a going concern or business assets are sold piecemeal</li> </ul> <p><b>Recovery rate for creditors</b></p> <ul style="list-style-type: none"> <li>• Measures the cents on the dollar recovered by secured creditors</li> <li>• Outcome for the business (survival or not) determines the maximum value that can be recovered</li> <li>• Official costs of the insolvency proceedings are deducted</li> <li>• Depreciation of furniture is taken into account</li> <li>• Present value of debt recovered</li> </ul> <p><b>Strength of insolvency framework index (0- 16)</b></p> <ul style="list-style-type: none"> <li>• Sum of the scores of four component indices:</li> <li>• Commencement of proceedings index (0-3)</li> <li>• Management of debtor's assets index (0-6)</li> <li>• Reorganization proceedings index (0-3)</li> <li>• Creditor participation index (0-4)</li> </ul>	<p>To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:</p> <ul style="list-style-type: none"> <li>- A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties.</li> <li>- The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater.</li> <li>- The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise.</li> </ul> <p>In addition, <i>Doing Business</i> evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.</p>

Resolving Insolvency - Côte d'Ivoire

## Details - Resolving Insolvency in Côte d'Ivoire

Indicator	Answer	Score
Proceeding	liquidation (after an attempt at reorganization)	As Mirage will not be able to settle its current liabilities with its available assets, it will file a declaration of cessation of payments (article 25 of the Uniform Act Organizing Collective Proceedings for Wiping Off Debts). In order to continue operating, Mirage will try to obtain the opening of reorganization proceedings and avoid liquidation. Under article 27, a composition proposal is a proposal lodged no later than 15 days following the declaration of cessation of payments, specifying the measures and conditions envisaged to redress the company. According to our information, Mirage will not reach an agreement with its creditors, so the composition proposal will not succeed and the court will convert the proceedings to liquidation some months after the lodging of the proposal (article 33 of the Uniform Act). A reorganization proceeding that is later converted into liquidation is the most likely proceeding in Côte d'Ivoire.
Outcome	piecemeal sale	The reorganization attempt will fail and the proceedings will probably be converted to liquidation. The hotel will stop operating and will be dismantled, and the assets of the debtor will be sold separately.
Time (in years)	2.2	Mirage will file a declaration of cessation of payments to obtain the opening of reorganization proceedings. The declaration has to be done 30 days following the cessation of payments. The competent court will then declare cessation of payments and open reorganization proceedings. The composition proposal will fail, so the proceedings will be converted to liquidation. According to our estimations, the complete process of a reorganization attempt that is then converted to liquidation takes approximately 26 months.
Cost (% of estate)	18.0	According to our estimations, a reorganization attempt that is later converted into liquidation costs approximately XOF 18,000,000 (18% of the value of the estate). Lawyer fees (6%), fees of auctioneers and bailiffs (5%) and receivers and experts (7%) appointed under articles 39, 41 and 48 constitute the main cost components. The fees of the auctioneer, the bailiffs, the receivers and experts are established in Decree No. 2013-279 establishing the fees in civil, commercial, administrative and social matters.
Recovery rate (cents on the dollar)		36.8

## Details - Resolving Insolvency in Côte d'Ivoire - Measure of Quality

	Answer	Score
<b>Strength of insolvency framework index (0-16)</b>		<b>9.0</b>
<b>Commencement of proceedings index (0-3)</b>		<b>2.0</b>
What procedures are available to a DEBTOR when commencing insolvency proceedings?	(c) Debtor may file for reorganization only	0.5
Does the insolvency framework allow a CREDITOR to file for insolvency of the debtor?	(b) Yes, but a creditor may file for liquidation only	0.5
What basis for commencement of the insolvency proceedings is allowed under the insolvency framework? (a) Debtor is generally unable to pay its debts as they mature (b) The value of debtor's liabilities exceeds the value of its assets	(a) Debtor is generally unable to pay its debts as they mature	1.0
<b>Management of debtor's assets index (0-6)</b>		<b>5.5</b>
Does the insolvency framework allow the continuation of contracts supplying essential goods and services to the debtor?	Yes	1.0
Does the insolvency framework allow the rejection by the debtor of overly burdensome contracts?	Yes	1.0
Does the insolvency framework allow avoidance of preferential transactions?	Yes	1.0
Does the insolvency framework allow avoidance of undervalued transactions?	Yes	1.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	Yes	1.0
Does the insolvency framework assign priority to post-commencement credit?	(a) Yes over all pre-commencement creditors, secured or unsecured	0.5
<b>Reorganization proceedings index (0-3)</b>		<b>0.5</b>
Which creditors vote on the proposed reorganization plan?	(a) All creditors	0.5
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	No	0.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0
<b>Creditor participation index (0-4)</b>		<b>1.0</b>
Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	No	0.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	No	0.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	Yes	1.0

**Note:** Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

## Employing Workers

*Doing Business* presents detailed data for the employing workers indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The study does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2019. [See the methodology for more information.](#)

### What the indicators measure

#### Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the maximum probationary period; (iv) minimum wage; (v) ratio of minimum wage to the average value added per worker.

#### Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) length of paid annual leave.

#### Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether the law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

#### Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments, and (iii) penalties due when terminating a redundant worker. Data on the availability of unemployment protection for a worker with one year of employment is also collected.

### Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

#### The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

#### The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

## Employing Workers - Côte d'Ivoire

## Details - Employing Workers in Côte d'Ivoire

	Answer
<b>Hiring</b>	
Fixed-term contracts prohibited for permanent tasks?	No
Maximum length of a single fixed-term contract (months)	24.0
Maximum length of fixed-term contracts, including renewals (months)	24.0
Minimum wage applicable to the worker assumed in the case study (US\$/month)	105.7
Ratio of minimum wage to value added per worker	0.4
Maximum length of probationary period (months)	2.0
<b>Working hours</b>	
Standard workday	8.0
Maximum number of working days per week	6.0
Premium for night work (% of hourly pay)	37.5
Premium for work on weekly rest day (% of hourly pay)	0.0
Premium for overtime work (% of hourly pay)	23.8
Restrictions on night work?	No
Restrictions on weekly holiday?	No
Restrictions on overtime work?	No
Paid annual leave for a worker with 1 year of tenure (working days)	26.4
Paid annual leave for a worker with 5 years of tenure (working days)	27.4
Paid annual leave for a worker with 10 years of tenure (working days)	28.4
Paid annual leave (average for workers with 1, 5 and 10 years of tenure, in working days)	27.4
<b>Redundancy rules</b>	
Dismissal due to redundancy allowed by law?	Yes
Third-party notification if one worker is dismissed?	No
Third-party approval if one worker is dismissed?	No
Third-party notification if nine workers are dismissed?	Yes
Third-party approval if nine workers are dismissed?	No
Retraining or reassignment obligation before redundancy?	No
Priority rules for redundancies?	Yes
Priority rules for reemployment?	Yes
<b>Redundancy cost</b>	
Notice period for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	4.3
Notice period for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	4.3
Notice period for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	8.7
Notice period for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	5.8
Severance pay for redundancy dismissal for a worker with 1 year of tenure (weeks of salary)	1.3
Severance pay for redundancy dismissal for a worker with 5 years of tenure (weeks of salary)	6.5

Severance pay for redundancy dismissal for a worker with 10 years of tenure (weeks of salary)	14.1
Severance pay for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure, in weeks of salary)	7.3
Unemployment protection after one year of employment?	No

## Business Reforms in Côte d'Ivoire

From May 2, 2018 to May 1, 2019, 115 economies implemented 294 business regulatory reforms across the 10 areas measured by Doing Business. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

---

### DB2020

- ✓ **Paying Taxes:** Côte d'Ivoire made paying taxes easier by implementing an electronic filing and payment system, and by introducing an online case management system to process value added tax cash refunds.
- ✓ **Enforcing Contracts:** Côte d'Ivoire made enforcing contracts easier by publishing reports on commercial court performance and progress of cases.

---

### DB2019

- ✓ **Starting a Business:** Côte d'Ivoire made starting a business easier by eliminating the requirement to notarize company deeds.
- ✓ **Dealing with Construction Permits:** Côte d'Ivoire strengthened construction quality control by appointing an independent architect in the commission tasked with reviewing building permit applications.
- ✓ **Getting Electricity:** Côte d'Ivoire increased the transparency of electricity tariffs by communicating tariff changes in advance.
- ✓ **Registering Property:** Côte d'Ivoire made transferring property easier by making registration fees payable at the Land Registry.
- ✓ **Getting Credit:** Côte d'Ivoire improved access to credit information by expanding the coverage of the credit bureau and beginning to distribute data from utility companies.
- ✓ **Paying Taxes:** Côte d'Ivoire made paying taxes easier by introducing an online platform for filing corporate income tax and value added tax returns.
- ✓ **Enforcing Contracts:** Côte d'Ivoire made enforcing contracts easier by adopting a law that regulates all aspects of mediation as an alternative dispute resolution mechanism.

---

### DB2018

- ✓ **Dealing with Construction Permits:** Côte d'Ivoire made dealing with construction permits easier by streamlining processes at its one-stop shop.

---

### DB2017

- ✓ **Dealing with Construction Permits:** Côte d'Ivoire made dealing with construction permits more transparent by making building regulations accessible online.
- ✓ **Getting Credit:** Côte d'Ivoire improved access to credit information by establishing a new credit bureau.
- ✓ **Enforcing Contracts:** Côte d'Ivoire made enforcing contracts easier by introducing a simplified fast-track procedure for small claims that allows for parties' self-representation.
- ✓ **Resolving Insolvency:** Côte d'Ivoire made resolving insolvency easier by introducing a new conciliation procedure for companies in financial difficulties and a simplified preventive settlement procedure for small companies.

---

### DB2016

- ✓ **Registering Property:** Côte d'Ivoire made transferring property less costly by lowering the property transfer tax rate.
- ✓ **Trading across Borders:** Côte d'Ivoire made trading across borders easier by implementing a single-window platform for importing, which reduced the time required for documentary compliance.
- ✓ **Enforcing Contracts:** Côte d'Ivoire made enforcing contracts easier by introducing new provisions on voluntary mediation.

---

### DB2015

- ✓ **Starting a Business:** Côte d'Ivoire made starting a business easier by reducing the minimum capital requirement, lowering registration fees and enabling the one-stop shop to publish notices of incorporation.
- ✓ **Registering Property:** Côte d'Ivoire made transferring property easier by digitizing its land registry system and lowering the property registration tax.
- ✓ **Getting Credit:** Côte d'Ivoire improved its credit information system by introducing regulations that govern the licensing and operation of credit bureaus.
- ✓ **Protecting Minority Investors:** Côte d'Ivoire strengthened minority investor protections by introducing greater requirements for disclosure of related-party transactions to the board of directors and by making it possible for shareholders to inspect the documents pertaining to related-party transactions and to appoint auditors to conduct an inspection of such transactions.
- ✓ **Trading across Borders:** Côte d'Ivoire made trading across borders easier by simplifying the processes for producing the inspection report and by reducing port and terminal handling charges at the port of Abidjan.

---

DB2014

- ✓ **Starting a Business:** Côte d'Ivoire made starting a business easier by creating a one-stop shop, reducing the notary fees and replacing the requirement for a copy of the founders' criminal records with one for a sworn declaration at the time of company registration.
- ✓ **Dealing with Construction Permits:** Côte d'Ivoire reduced the time required for obtaining a building permit by streamlining procedures at the onestop shop (Service du Guichet Unique du Foncier et de l'Habitat).
- ✓ **Registering Property:** Côte d'Ivoire made transferring property easier by streamlining procedures and reducing the property transfer tax.
- ✗ **Paying Taxes:** Côte d'Ivoire made paying taxes more costly for companies by increasing the employers' contribution rate for social security related to retirement, increasing the rate for the special tax on equipment and eliminating several kinds of tax relief for businesses.
- ✓ **Enforcing Contracts:** Côte d'Ivoire made enforcing contracts easier by creating a specialized commercial court.

---

DB2012

- ✓ **Starting a Business:** Côte d'Ivoire made starting a business easier by reorganizing the court clerk's office where entrepreneurs file their company documents.
- ✓ **Getting Credit:** Access to credit in Côte d'Ivoire was improved through amendments to the OHADA Uniform Act on Secured Transactions that broaden the range of assets that can be used as collateral (including future assets), extend the security interest to the proceeds of the original asset and introduce the possibility of out-of-court enforcement.
- ✓ **Paying Taxes:** Côte d'Ivoire eliminated a tax on firms, the contribution for national reconstruction (contribution pour la reconstruction nationale).

---

DB2011

- ✓ **Dealing with Construction Permits:** Côte d'Ivoire eased construction permitting by eliminating the need to obtain a preliminary approval.
- ✓ **Paying Taxes:** Côte d'Ivoire made paying taxes less costly for companies by reducing the corporate income tax rate.

---

DB2009

- ✓ **Paying Taxes:** Côte d'Ivoire made paying taxes easier for companies by revising the real estate tax on developed land and reducing the corporate income tax rate.

---

DB2008

- ✓ **Starting a Business:** Côte d'Ivoire made starting a business easier by abolishing the requirement to notify the labor ministry.
- ✓ **Paying Taxes:** Côte d'Ivoire made paying taxes less costly for companies by reducing tax rates on corporate income and on insurance contracts.

*Doing Business 2020* is the 17th in a series of annual studies investigating the regulations that enhance business activity and those that constrain it. It provides quantitative indicators covering 12 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
